

## Barbados energy storage project successfully connected to the grid

The Barbados National Energy Company Ltd. (BNECL), in partnership with the Inter-American Development Bank (IDB), is leading the installation of 10 MW of Battery Energy Storage Systems (BESS) across the island. These will support the national grid for additional renewable energy integration. In Barbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has stalled the growth of the renewable energy sector. The tender process will open the door for developers to bid for up to 60 megawatts Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections. The Ministry of Energy and Business is currently hosting a three-day Procurement Design Workshop with key stakeholders to discuss and The Government of Barbados has officially launched a major procurement process for the country's first large-scale Battery Energy Storage Systems (BESS), aimed at transforming the national electricity grid and unlocking delayed renewable energy investments. The launch event, hosted by the Ministry The company's urgent need for increased battery energy storage systems (BESS) is driven by the rapid growth of distributed photovoltaic (DPV) systems, which are nearing the current grid's capacity. BL& P's attempt to proactively address this challenge with a request for 90 megawatts (MW) of BESS Barbados has launched a significant tender for 200 MW of battery storage systems, a move designed to better integrate renewable energy into its national grid. Spearheaded by the Barbados Electric Light & Power Company (BLPC), this ambitious project is a pivotal step in the island's transition to BNECL-IDB 10 MW Battery Energy Storage ProjectThe Barbados National Energy Company Ltd. (BNECL), in partnership with the Inter-American Development Bank (IDB), is leading the installation of 10 MW of Battery Energy Barbados opens second phase of battery storage Barbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has stalled the growth of the Battery energy storage systems coming to BarbadosBarbados has reached the maximum capacity of the electric grid and the Barbados Light and Power Company has been advising that it is unable to connect homeowners and residential PV systems to the grid BNECL-IDB 10 MW Battery Energy Storage ProjectThe Barbados National Energy Company Ltd. (BNECL), in partnership with the Inter-American Development Bank (IDB), is leading the installation of 10 MW of Battery Energy Barbados opens second phase of battery storage project to unlock gridBarbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has Battery energy storage systems coming to BarbadosBarbados has reached the maximum capacity of the electric grid and the Barbados Light and Power Company has been advising that it is unable to connect homeowners and Barbados Launches Groundbreaking Battery Storage TenderThe Government of Barbados has officially
