

## Canadian 18kw high quality inverter

High-performance all-in-one hybrid inverter for off-grid, grid-tied, or backup power systems. Designed for flexibility, scalability, and high solar input, it's perfect for residential or light commercial use. A complete solution for advanced solar-plus-storage systems. EG4 18KPV Hybrid Inverter Exceptional Power Performance: Featuring a maximum input of 18,000W and a continuous output of 12,000W, this inverter is suitable for high-demand operations such as 120/240V split-phase. EG4 18KPV Hybrid Inverter Overall, with its easy plug-and-play installation, comprehensive certifications, and efficient management of power from solar, battery, and grid simultaneously, the EG4 18kPV All-In-One Hybrid Inverter is the ultimate 18KW Elios Hybrid Solar Inverter Charger | All-in-One Solution. With plug-and-play installation, robust certifications, and reliable performance, the EG4 18kPV is built for efficiency, flexibility, and long-term energy independence. Key Features: High Energy Handling | 18kPV-12LV All-In-One Hybrid Inverter. With 18kW PV input and 12kW output, the inverter offers high energy handling and can parallel up to 10 units for expanded capacity. A 600V DC input and three MPPTs ensure optimal energy conversion and true split-phase output. EG4 18KPV Hybrid Inverter Exceptional Power Performance: Featuring a maximum input of 18,000W and a continuous output of 12,000W, this inverter is suitable for high-demand operations such as 120/240V split-phase. EG4 18KPV Hybrid Inverter Overall, with its easy plug-and-play installation, comprehensive certifications, and efficient management of power from solar, battery, and grid simultaneously, the EG4 18kPV All-In-One 18KW Elios Hybrid Solar Inverter Charger | All-in-One Solution. The Hybrid High-Performance Inverter offers top efficiency and reliability as an all-in-one solar energy solution. Available at Volts Energies Canada at the best price. EG4 18kPV Hybrid Inverter. With plug-and-play installation, robust certifications, and reliable performance, the EG4 18kPV is built for efficiency, flexibility, and long-term energy independence. Key Features: High Energy Handling | 18kPV-12LV All-In-One Hybrid Inverter. With 18kW PV input and 12kW output, the inverter offers high energy handling and can parallel up to 10 units for expanded capacity. A 600V DC input and three MPPTs ensure optimal energy conversion and true split-phase output. EG4 18K PV Hybrid Inverter | 48V | 18000W PV Input | 12000W High-performance all-in-one hybrid inverter for off-grid, grid-tied, or backup power systems. Designed for flexibility, scalability, and high solar input, it's perfect for residential or light commercial use. EG4 18KPV Hybrid Inverter Exceptional Power Performance: Featuring a maximum input of 18,000W and a continuous output of 12,000W, this inverter is suitable for high-demand operations such as 120/240V split-phase. EG4 18K PV Hybrid Inverter | 48V | 18000W PV Input | 12000W High-performance all-in-one hybrid inverter for off-grid, grid-tied, or backup power systems.
