

## Community Energy Storage Projects

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more. New York is looking for 1 GW of energy storage projects right now.

New York Gov. Kathy Hochul has launched New York's first bulk energy storage request for proposals (RFP), intended to procure 1 GW of bulk energy storage as part of New York's 6-GW energy storage roadmap.

NYCEDC and Newlab Announce New Resilient Energy Cohort The partners hosted leaders from the energy storage industry, city government and community organizations at Newlab to introduce the startups participating in the new Resilient Energy Neighborhood and community battery projects: A systematic Neighborhood and community battery projects aim to empower communities by engaging them in decision-making processes and providing incentives for their participation in energy storage.

The Ultimate Guide to Community Energy Storage In this comprehensive guide, we will explore the benefits, challenges, and opportunities associated with community energy storage, as well as provide a step-by-step guide on Community storage in New York City: Developer Last week, Ninedot announced the closing of a \$65 million equipment financing transaction led by First Citizens Bank to support the purchase of nearly 100 megawatts (MW) / 400 megawatt hours (MWh) of batteries for Long wary of batteries, New York's now poised to go | Canary Startup NineDot Energy is working on a third, medium-sized option -- " community-scale battery storage" projects that can fit into less than an acre of open land or building space.

NYCEDC Advances Green Economy Action Plan NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. When built, the facility will be able to hold up to 100 Energy Storage Program Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more. New York is looking for 1 GW of energy storage projects right now.
