

Dual Carbon Energy Storage Industrial Park Construction Plan

China to develop zero-carbon industrial parks to boost green China on Tuesday issued a document to support the development of zero-carbon industrial parks, aiming to accelerate the country's green transition. On June 30, , China's NDRC, MIIT and NEA China's top economic and energy regulators have jointly released a sweeping policy directive to initiate the large-scale construction of "zero-carbon industrial parks," marking a significant acceleration in the China's zero-carbon industrial parks light way to According to the city's action plan, Changzhou aims to build more than 10 near-zero-carbon parks and more than 15 near-zero-carbon factories from to . Among the pioneers in this plan is Nari Industrial Park low-carbon energy system planning framework: To reduce industrial carbon emissions, this paper aims to construct a low-carbon energy system tailored for industrial parks and conducts research on configuration planning. Pathways and Key Technologies for Zero-Carbon Industrial This paper provides a concise overview and future prospects of the pathways and key technologies for achieving zero-carbon industrial parks.
