

Island New Energy solar Panels

Why should you install solar panels in Long Island? It's the price of electricity. We can't fix the high taxes or the traffic on Long Island, but we can make your electricity more affordable. Solar panel installation at your home in Long Island will give you independence where you take less from the grid and save more every month. Why is solar a good option for Long Island power solutions? Solar is efficient, without any of the waste that is seen on the grid. Solar is more reliable, especially with a battery backup system. Solar is more affordable, with significant savings even when financing a system. Every Long Island Power Solutions solar installation comes with a 25 Year Warranty! Solar works year-round. Are solar panels worth it on Long Island? Yes, solar panels are worth it on Long Island. Based on strong incentives, high utility electricity prices, and a favorable net metering policy, homeowners can expect to save tens of thousands of dollars over the warranted life of a solar system. Can you go solar on Long Island? The first incentive that would apply to going solar on Long Island is the NY-Sun Megawatt Block program. This program reduces the upfront cost of going solar based on the size and location of the system. There are three regions: Con Edison, Upstate, and Long Island. Does Long Island still have solar incentives? There are three regions: Con Edison, Upstate, and Long Island. Unfortunately, the Long Island region maxed out in and no longer has incentives. However, while the NY-Sun solar incentive has expired in Long Island, there are still funds remaining for battery storage, which we'll discuss later in this article. Are solar panels cost-effective in New York? New York is one of the best states for solar in the U.S. It could be incredibly cost-effective if you team up with a Long Island solar company like Sunrun, thanks to the plummeting costs of rooftop solar panels and energy back-up systems.
