

## Paraguay energy storage project planning update

How to strengthen the energy sector in Paraguay?1. General energy sector Institutional strengthening: creation of the Ministry of Energy, Hydrocarbons, and Mining (MEHM) by , followed by a plan to strengthen it and the public companies in the sector by . Energy efficiency: creation of the Paraguayan Energy Efficiency Agency (public-private partnership) by . How can Paraguay benefit from solar energy?Solar energy, in particular, is seen as a vital addition, taking advantage of Paraguay's abundant sunlight to reduce pressure on its hydropower resources. The government also plans to harness bioenergy through biomass and biogases, tapping into organic waste and agricultural byproducts as fuel sources. Can Paraguay use natural gas as a transitional energy source?In addition to its focus on renewables, Paraguay is also looking to natural gas as a transitional energy source. The country's new energy policy includes a project to integrate natural gas into its energy matrix. This would provide a reliable alternative to hydrocarbons while renewable technologies continue to scale. What is Paraguay's new energy policy?The New Energy Policy aims to consolidate Paraguay's position as a key player in regional energy integration, through overarching goals to strengthen the national electricity sector and key subsectors such as: electricity, binational hydroelectric entities, bioenergy, renewable alternative sources, and hydrocarbons. Is hydrogen the future in Paraguay?"Hydrogen is the future," Bejarano stated, highlighting the country's ambitions to develop hydrogen-based energy solutions over the next few decades. This focus on innovation aligns with global trends and sets Paraguay on a path to becoming a key player in the renewable energy market. Should Paraguay rely on natural gas?By relying on natural gas in the short term, Paraguay can reduce its dependence on coal and oil while ramping up its investments in solar, hydrogen, and bioenergy. Paraguay's ambitious energy policy is a bold step toward a more sustainable future, but it also comes with challenges. Paraguay's Bold Energy Vision: Shifting to Signed into action by President Santiago Pe&#241;a, this initiative sets the stage for Paraguay to diversify its energy generation and embrace sustainable alternatives such as solar energy, hydrogen fuel, and biofuels.
