

Rwanda solar power supply system with monitoring manufacturer

Is there a market for solar energy in Rwanda? Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy. How many solar home systems are there in Rwanda? The market for Standalone solar systems is growing in Rwanda, and currently a total of approximately 50,000 solar home systems are known to have been installed in Rwanda for the last 3 years. Can solar power be used in Rwanda? Rwanda has chosen to focus on the use of solar power in two main areas: electrification of clinics, schools and administrative offices in remote centers and solar water heating. This approach offers significant environmental and recurrent cost savings, substituting biomass and electricity water heating. How many Rwandans are accessing electricity through off-grid solutions? As a result, today, 14% of Rwandan households are accessing electricity through off-grid solution, mostly solar home systems.
