Let's start with the basics. Power supply side energy storage refers to systems installed directly at power generation sites --think wind One of the nation's largest battery energy storage sites is coming One of the country's largest battery energy storage sites is about to be built on Staten Island. It's part of New York's push for renewable energy. But families there say by the LIPA Approves Battery Storage at Site of Shuttered Shoreham The Long Island Power Authority approved two utility-scale battery energy storage contracts on Wednesday, Dec. 18 -- a 50-megawatt project on LIPA's property that had NYCEDC Advances Green Economy Action Plan with Support of The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid.
