

Slovakia battery BMS production

The project marks Slovakia's first-ever mega-scale battery factory, spanning 65 hectares. Phase one of the facility is designed for a capacity of 20 GWh, with trial production scheduled for and full-scale production commencing in . The first phase of the plant is planned with a capacity of 20 GWh, with trial production scheduled for and full-scale production starting in . Products will primarily be exported to the EU market, creating 1,300 new jobs in the Surany region during the initial phase. Gotion High-tech (SHE: Slovakia Gotion Gigafactory Milestone Celebration Ceremony of Slovakia's first electric-vehicle battery plant officially began on October 28 in Surany. It is redefining how industries evolve, how economies grow, and how humanity envisions its shared future. The transition to clean energy is no Slovakia's first EV battery facility has officially launched, with Gotion High-Tech marking the milestone at a ceremony held on 28 October in Surany. Occupying 95 hectares, the site is engineered for an initial capacity of 20GWh and is scheduled to begin production in . All EV battery output On the morning of October 28 local time, Gotion High-Tech officially broke ground on its battery gigafactory in Surany, Slovakia. Shanghai (Gasgoo)- On the morning of October 28 local time, Gotion High-Tech officially broke ground on its battery gigafactory in Surany, Slovakia -- the country's Chinese battery manufacturer Gotion High-Tech has begun construction on a production facility in Surany, Slovakia. The investment is part of a strategy announced in December to increase production capacity in Europe. According to the company, the 65-hectare plant will be the first large-scale Slovakia Gotion Gigafactory Milestone Celebration Ceremony of Slovakia's first electric-vehicle battery plant officially began on October 28 in Surany.
