

## Solomon Islands PV container substation installation conditions

How many kilowatts of solar will be installed at Solomon power office? Roof top solar - 220 kilowatts at Solomon Power office. This will be commissioned toward end of November end this year. Planned Projects: Plans to acquire land with SDA mission on their land close to SP Lungga Station. What is subproject 1A - Henderson ground mounted solar? Subproject 1a - Henderson ground mounted solar. The approximately 1.0 MWp ground-mounted solar photovoltaic (PV) array in Henderson will occupy 1.2 hectares of a 1.32 ha registered in the Honiara Land Registry as Lot 290 of LR 83/R, Parcel number 192-004-255 transferred to Solomon Power (SP) on 30 May . Who will carry out a consultation on the Honiara East substation? Carried out by DC Social Safeguards team. The Honiara East substation is located 1 km north of the Henderson site, hence it is expected that similar consultations outcomes would arise. Nevertheless, further consultation with the surrounding community will be carried out by SP prior to issuing the tender for the construction contract. How is SP preparing a solar energy investment program? SP, ADB and Entura are working together to prepare a solar energy investment program that is consistent with the Renewable Energy Road Map and SP Renewable Energy Development Program. To increase its renewable solar energy component, SP plans to build additional solar farms. Does sp have solar projects in other provinces? SP has other solar projects in other provinces in the country namely: Tulagi, Munda, Malu, Kirakira and Lata which are ADB funded including other Renewable Energy Project funded by NZAid ( Vonunu, Sasamunga, Hauhui and Namuga) and WB (Visale, Baulokuma, Tingoa and other sites in Malaita). Who owns a solar array in Henderson? The approximately 1.0 MWp ground-mounted solar photovoltaic (PV) array in Henderson will occupy 1.2 hectares of a 1.32 ha registered in the Honiara Land Registry as Lot 290 of LR 83/R, Parcel number 192-004-255 transferred to Solomon Power (SP) on 30 May . SP ownership was reconfirmed by the Solomon Islands Registrar of Titles on 25 April . Solar System Connection Manual Feb 18, The PV inverter system will usually consist of a photovoltaic array on the roof of the building and a suitable grid-connect inverter connected to the metering box. This arrangement Solomon Islands: Renewable Energy Development Project Oct 26, This output will include the installation of a 3.5 MW ground-mounted solar PV system; power substation with feeders for the solar farm; the battery energy storage system Renewables Readiness Assessment: Solomon Islands The Government of the Solomon Islands has adopted national standards for solar PV equipment and installation through the Secretariat of the Pacific Regional Environment Programme's Pacific Clean Energy Partners and Solomon Clean Energy May 11, Introduction Pacific Clean Energy Partners/Solomon Clean Energy Partners (PCEP/SCEP) is inviting qualified solar energy Installers/Contractors (Respondents) to Solomon Islands Electricity Authority Solar System This manual outlines the policies, processes, and forms for connecting solar systems to the SIEA grid. It guides SIEA personnel in receiving, considering, and approving solar system connections. Solar System Connection Manual Solar Rebates There are no solar rebates available in the Solomon Islands for the installation of these systems Feed-In Tariffs There is no feed-in tariff in the
