

## Ukraine Australia Battery Energy Storage Project

MASSIVE Australian battery project will store 5.5 GWh of power Finnish energy giant W&#228;rtsil&#228;; has announced the latest addition to its massive network utility-scale battery energy storage system (BESS) projects in Australia: a record Ukraine's Largest Battery Storage Project Enters Final Despite the many challenges of building energy projects in a war zone, Ukraine's largest battery energy storage project has entered its final delivery phase - ahead of schedule. Ukraine's largest battery storage project enters DTEK and Fluence have begun commissioning Ukraine's largest battery energy storage system, a 200 MW/400 MWh installation spread across six sites that represents one of the biggest storage Ukraine's largest battery energy storage project The project was developed in partnership with American energy company Fluence Energy Inc. The 200-megawatt system spans six locations across Ukraine and represents one of Eastern Europe's most DTEK and Fluence Energize Ukraine's Largest Energy Storage Built in under six months, the project is designed to stabilize Ukraine's power grid ahead of the winter season. Due to wartime restrictions, the project was commissioned Fluence Energizes Ukraine's Largest Battery The energy storage systems are set to enhance grid stability and resilience in Ukraine, contributing to improved electricity supply security. Fluence's innovative approach to remote commissioning and training of local DTEK and Fluence energise the largest battery storage facility in DTEK Group, in partnership with Fluence, a global market leader delivering intelligent energy storage, has energised Ukraine's largest battery-based energy storage Largest Battery Energy Storage System Project Commissioning Commercial operations are scheduled to begin in October , coinciding with Ukraine's winter heating season when grid stability becomes critical. The storage systems will DTEK plans to invest EUR140m in Ukraine's energy The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system. DTEK Group aims to commission the new storage systems by September . Ukraine's biggest battery storage project goes online Ukraine's DTEK has completed a 200 MW/400 MWh battery project, the nation's largest, in just six months using remote commissioning with Fluence.
